

Country	MIKAS springs	Coordinates / Nearby City	Spring discharge (Q in l/s,min/av/max) / tapped or not	Criteria* in order / Main justification */ H-historic, A-aesthetic, S-scientific, E-Economic, Ec-ecologic	Data collected by
Bolivia 	1. Chiflonqaa	S 18°07'20" W 65°46'26" Z = 2603 m asl Toro Toro	No discharge records. Not tapped	A, S, Ec, H, E <i>The springs issues from a cave high up in the Toro Toro canyon, forming a scenic waterfall. It's one of the main sites of the Toro Toro National Park and is one of its main tourist attractions. It is hydrologically connected to Umajalanta cave, home of an endemic species of cave fish. It is likely to have been of importance to the local indigenous people that still live in the region.</i>	Augusto Auler
